DEMOCRATIC CELEBRATION!

The Democracy of Gates will celebrate their recent brilliant victory on the second Saturday in September, at the Silver Spring. The patriotic of all parties are anvited to attend. COME ALL!

MANY DEMOCRATS. August 31st.

THE DAILY PROGRESS.

We have received the first number of the new daily paper just started at Newbern, by J. L. Pennington, Esq. It is very neatly printed, of fair size, well got up, giving evidence of tact, talent and industry in its editorial management, and as we remarked before, in noticing its prospectus, it ought to be sustained by the citzens of Newbern. Six dollars a year in advance. We wish our friend Pennington a safe and prosperous voyage .- Wil. Jour.

CURRITUCK AND MARTIN.

The right and left wings of the Demec, requisite to entitle her to a representative racy of this District seem to be rivalling each other in good works-but it is close work-in fact, a drawn battle-as appears by the vote at the late Gubernatorial election. Look at the figures :

FARMERS' BANK MONEY.

In answer to the enquiries of a friend in Norfolk in relation to the money of the Farmers' Bank, we have to say that some persons take it and others refuse it except at a heavy discount. We believe the Bank perfectly solvent, and therefore take all we can get. The Bank is redeeming its bills as rapidly as the means will allow. The want of confidence in its solvency abroad has produced serious embarrassments to our people, as they have been

the administration, this, however, was

warded off, and the tact and skill of the

"great leader" was not sufficient to rally

to his standard a force adequate to defeat

the Democracy upon this question. The

English compromise bill was regarded as a

triumph of the Lecompton party, and a

settlement of the vexed and dangerous

controversy. After the action of Congress

and the adoption of the bill, men breathed

freer: the exciting cause being removed, a

calm ensued: the angry passions of the

combatants were lulled to repose, and,

among the more politic, cool, and sagacious

of the party, there was a general desire

manifested to heal the wound, to repair

the breach, to restore friendly relations,

and once more to unite the Democracy as

According to the provisions of the compro-

mise bill, in the event of these ordinances

being rejected. Kansas cannot be admitted

into the Union until she has a population

in Congress. With such a population and

a regularly adopted constitution, her claims

to a place in the Union could not, and

would not, be disputed or resisted. This

compromise faithfully adhered to, and

carried out in good faith, would render all

farther disturbance or delay in the admis-

sion of Kansas impossible, and deprive

those who have been instrumental in fo-

menting discord and bloedshed within her

disgraceful scenes which were witnessed

in the last Congress, of the power of doing

They, it seems, are resolved, that the quiet

and that, at the proper time Kansas may

come in according to the form adopted for

her. The formation of a new constitution

is urged, that application may be made to

the Congress for admission, whether the

provisions of the enactment are complied

the programme of Black Republicanism.

The move exhibits the hollow-hearted pre-

fanatics and negro-worshippers, and proves

how entirely they are actuated by interest,

"The accommodations here certainly are very wretched, except to a favored few. come into competition with it: First premium at the N. York State Fair. First premium at the Ohio State Fair. First premium at the Michigan State Fair. First premium at the N. Carolina State Fair. First premium at the Nashville (Tenn.) Fair. First premium at one County Fair in N. York First premium at ten County Fairs in Ohio. Trial of corn and cob mills at the North Carolira State Fair, October 1856.

The following table will show the time occupied by each of the Mills on exhibition in grand-

ing half bushel of corn and cobs: Young America, 2 minutes and 40 seconds.

Little Giant, 4 Magic Mill, 6 Magic Mill, Sinclair & Co's Mill, two trials, average time, 6 minutes and 58 seconds.

Advantages of the Young America or Excel-

for Mill over all others: 1st, great strength and our ability; 2d, simplicity, (having but one set screw to graduate the quality of grinding, which renders it so simple that it may be managed by any ordinary farm hand;) 3d, it will grind more corn, or corn and cob, in the same time, and ot same quality, than any other mill in use of the same size; 4th, economy—that part of the mill which is most liable to wear, being separate from the main body of the machine, can be renewed when worn out, at the small cost of \$3. Thus in the Young America or Excelsior mill, I present the best, cheapest and most durable mill ever offered to the Farmer. This mill is of large size and greater capacity than any other mill ever sold at the same price.

Price, including extra plates, \$50. I am also manufacturing Cart and Wagon Wheels, Farm Wagons, Carts, Trucks, Drays, Plows, Harrows, Cultivators, Corn Shellers, and Agricultural Implements generally, and am better prepared to furnish farmers and merchants than any other house in the city.

Call and examine my stock and be convinced

that it is to your interest to patronize Southern enterprize. I am unwilling to believe that all the meu in Virginia and North Carolina prefer to build up the North and impoverish the South. I have also a Foundry connected with my fac-tory, and solicit orders for Castings generally. S. MARCH, Norfolk, Va.
